School Resource Officer

- SRO Update each month in the Newsletter

During the past few months as Bretons's new SRO, I have had the opportunity to meet the students and sit in the classrooms, participate in school events and presentations, and attend school sporting events. As the SRO the goal is to continue encouraging a positive relationship between students and Police. During the upcoming months, there are plans in place to facilitate proper lockdown drills within the school to further prepare students, teachers, and all employees of the school the proper drills in the event of an emergency situation.
